

**MORNING GLORY  
CLEAN**

The Morning Glory Clean is the ultimate first-stage overdrive pedal. We took our most legendary overdrive to a new level and redefined what it means to be transparent. Clearer pick attack, improved low end, and more versatile gain stacking.

---

## CONTROLS

**VOLUME** - Adjust the overall volume in conjunction with the drive and clean.

**CLEAN** - Full left: original Morning Glory. Full right: pure clean signal. Start with Clean and Drive maxed, dial Clean back (counterclockwise) until you find your perfect balance.

**DRIVE** - Saturation. Crank it and use the Clean control as your balance. This pedal is designed to be used this way.

**tone** - Classic Morning Glory tone stack. Affects only the drive path. Back for warmth, forward for clarity.

**CLEAN BOOST PRO TIP** - Morning Glory Clean can be used as a stand-alone clean boost. Set the Clean to 100% (fully clockwise) and increase the Drive. In this configuration, the Drive will not produce any overdrive clipping - only clean volume boosting.

## SPECIFICATIONS

- **±9V DUAL SUPPLY (MASSIVE HEADROOM)**

- **TOP-MOUNTED JACKS**

- **9VDC CENTER NEGATIVE**

- **SILENT BUFFERED BYPASS SWITCHING**

**THIS PEDAL MEASURES 2.6" X 4.8" X 1.6" AND CONSUMES 60mA. DO NOT USE MORE THAN 9VDC. DAMAGE MAY OCCUR AND YOUR WARRANTY WILL BE VOIDED.**
