**Turning the Amp ON/OFF:** The guitar volume knob is also the power switch. Turn the volume knob to the right to turn the amp on.

**Plugging in Your Guitar:** Plug your guitar into the 1/4-inch guitar input jack on the front of the MA-5 Micro Amp. Adjust the guitar volume using the guitar volume knob, adjust the tone using the tone knob, and adjust the gain using the gain knob. Select "clean" or "overdrive" using the Clean/Overdrive switch.

**Using Bluetooth:** Ensure the amp is turned on. Press the Bluetooth button so that the blue LED indicator is on and blinking. Select "Traveler MA-5" from the device list on your mobile device. Once paired, the MA-5 blue LED indicator will remain on. Adjust the volume using the Bluetooth/Aux volume knob.

**Using an External Audio Device:** Plug any audio source into the MA-5 Micro Amp via the 1/8-inch aux jack on the back. Adjust the volume using the Bluetooth/Aux volume knob.

**Using the Headphone Output:** Plug headphones into the MA-5 Micro Amp via the 1/8-inch headphone jack on the back. This will automatically mute the MA-5's main speakers.

**Charging the Amp:** The MA-5 Micro Amp contains an internal lithium battery that can be recharged via the DC 5V charging port on the back. Use the included USB-C charging cable or similar cable to charge your amp. The MA-5 Micro Amp is charging when the power indicator glows yellow. Once the MA-5 is fully charged, the indicator will turn off.
